Dedicated to
healthcare logistics

movianto 

Movianto in the Netherlands

As part of the Movianto Group, Movianto Nederland guarantees to deliver the highest quality of logistics and distribution services to its clients from the pharmaceutical, biotechnology and healthcare industries.

Whether it is warehousing, transport or manufacturing services, the dedicated team at Movianto Nederland is always there to move your business forward.

We constantly develop innovative logistics solutions, allowing clients to benefit from the greatest possible level of expert knowledge along with the highest service standards. Our central IT platform, Movianto Prince, offers full transparency throughout the whole supply chain.

Movianto Nederland has the capability to deliver on a daily basis to every hospital, pharmaceutical wholesaler, laboratory, doctor and pharmacy within the Benelux. Along with the Movianto business in Belgium, we show the willingness to provide individual logistics and distribution solutions in close proximity to our clients' customers, now and in the future.

Warehouse

Movianto Nederland is strategically located in Oss, in the centre of the Benelux.

The facility provides:

- Ambient storage (15–25°C)
- Cold Chain storage (2–8°C)
- Validated Warehouse Management System (WMS)
- Storage of samples, promotional material and clinical trials

Movianto meets strict storage and handling requirements and has the expertise and flexibility to adapt to changing business needs. We are in an ideal position to deliver specialised solutions with a clear focus on client requirements and product groups.

Warehousing Services

Our expertise as a specialised pharmaceutical logistics provider is based on sophisticated procedures in line with industry standards. We monitor your products along the whole supply chain, from order entry, packaging and commissioning to dispatch, invoicing and customer service.

Warehousing services include:

- Order-to-cash
- Call centre service
- Product release
- Recall and return management
- Inventory management

Movianto offers further warehousing services including customer service, samples and clinical trials storage, as well as promotional material management, which can be adjusted to your individual needs.

Dedicated to healthcare logistics

Manufacturing Services

Our manufacturing services are flexible enough to meet specific product and delivery requirements, taking into account the upcoming challenges in an ever-changing market.

Manufacturing services include:

- (Re-) Packing
- (Re-) Labelling
- Kitting
- Rework

Movianto can pack, label and assemble the products before they are delivered to the recipient, in accordance with the specific requirements of your market. This applies also to clinical trials and physician samples.

As a service provider, we promptly respond to your requests, allowing you to save time and cost while your products are customised in the most efficient way.

Transportation

Movianto is solely dedicated to the healthcare industry and offers various flexible and attractive distribution models, not only on a local level, but also on regional and European levels.

Our services include:

- Own fleet for regional solutions
- Multi-temperature vehicles
- GPRS tracking technology
- Dedicated transport
- Highest product safety

With the integration of Movianto Belgium Dirk Raes' own fleet, one of the leading specialised temperature-controlled logistics suppliers in Europe, we use synergies within the Benelux to guarantee high-quality transportation with minimum risk.

Your product will be delivered under the right conditions, at the right time, to the right place.

IT system

Movianto's IT system stands for full transparency along the entire supply chain, allowing individual data access to all connected Movianto subsidiaries with only one IT interface.

Your dedicated key account manager will assess your individual needs before adapting the system that best meets your business objectives.

Our IT system includes:

- Central IT platform Movianto Prince
- Validated SAP system
- Centralised vehicle scheduling

Efficient, transparent and flexible service tools, which can be additionally arranged, allow you to check and monitor your products and sales online while creating dynamic reports.

Quality

Quality is essential in every part of our business. We have made product and patient safety to our highest priority and the core of our daily business, sharing the ethics of the healthcare industry. Our documentation is consistent, transparent and validated.

Our standards include:

- Standardised Quality Management System (QMS)
- Certification in accordance with DIN ISO 9001:2008
- GMP/GDP guidelines
- Validation Master Plan (VDM)

To show our dedication to our clients, Movianto has published and internalised a quality charter to make sure existing high standards are met and ongoing improvements will be documented and integrated.
