## Movianto in Portugal

Movianto Portugal has the expertise to provide the highest quality of logistics and distribution services to its clients from the pharmaceutical, biotechnology and healthcare industries. We are continually developing individual logistics solutions, thus allowing clients to benefit from the greatest possible level of expert knowledge along with the highest service standards in warehousing, transport and manufacturing services.

To enable our clients to benefit from existing synergies, Movianto Portugal and Movianto Spain are managed as one region within the Movianto Group. The infrastructure of our distribution network within the region allows us to deliver to every hospital, pharmaceutical wholesaler, laboratory, doctor and pharmacy within Portugal and Spain within a period of 24 hours.

In our business Quality Management is of the utmost importance. With patient safety and product security as the main part of our business operations, a person dedicated to Quality ensures that the Group-wide standards are met at all times. Furthermore, our central IT platform, Movianto Prince, offers full transparency throughout the whole supply chain.

Benefit from our experience and take advantage of our warehousing and distribution network – now and in the future.

### Warehouse

Movianto Portugal is strategically located near Lisbon.

The facility provides:

- Ambient storage for more than 5,000 pallets (15–25°C)
- Cold chain facilities for up to 300 pallets (2–8°C)
- Frozen storage area (-20°C)
- Controlled drug storage
- Continuous temperature control and recording
- Storage and handling of clinical trials and samples

Movianto meets strict storage and handling requirements and has the expertise and flexibility to adapt to changing business needs. Together with over 25,000 pallet spaces in Spain, Movianto caters for any central distribution solution across the Iberian region.

### Services

Our state-of-the-art, temperature-controlled and validated warehouse is the centre of our storage activities. Products are continuously monitored from the time they enter the warehouse up to their final destination.

Services include:

- Order-to-cash
- (Re-)packaging and (re-)labelling
- Kitting service
- Clinical trials
- Handling of promotional material

We offer holistic, customised pharmaceutical solutions to deliver your products to customers safely and on time while meeting special requirements of specific markets.

With a higher flexibility within the supply chain and the avoidance of out-of-stock situations, Movianto has proven these in-house services contribute to business running smoothly.

# Dedicated to healthcare logistics

## Distribution

Movianto is solely dedicated to the healthcare industry. We offer flexible and attractive distribution models, not only on a local level, but also on regional and European levels.

Our services include:

- Transport services for Portugal within 24 hours
- Distribution for the whole Iberian region within 48 hours
- Temperature-controlled transportation
- Online tracking

If you require a faster service, we can offer express delivery for your products, customised completely to your requirements.

## Reporting and IT

Movianto's IT system stands for full transparency along the entire supply chain. Your dedicated key account manager will assess your individual needs before adapting the system that best meets your business objectives.

We offer:

- FEFO management
- Batch number traceability
- Tracking & tracing system
- ePromotional tool
- Proof of delivery

Individual data access to all connected Movianto subsidiaries is managed with only one IT interface. Once connected, our central European IT platform, Movianto Prince, ensures the monitoring of your data online, at all times and via standard interfaces and real-time reports.

## Quality standards

Quality is the core of our daily business. Sharing the ethics of the healthcare industry, quality at Movianto is consistent, transparent and validated.

Our standards include:

- DIN ISO 9001:2008 certified
- Standardised Quality Management System (QMS)
- Validated Warehouse Management System (WMS)
- GxP compliance
- Validation Master Plan (VMP)

With over 600 audits conducted by our clients annually and several internal audits, we guarantee that quality at Movianto is consistently evaluated. Several workshops are organised by our European Quality Manager who reports directly to the CEO of our Group – a clear sign of the significance that quality has at Movianto.

## Iberian region

The business of global distribution is becoming increasingly complex. Our international clients from the pharmaceutical, biotechnology and healthcare industry choose us because we efficiently manage the complex requirements in the storage and distribution of their products within the Iberian region.

- Same-day delivery for all of Portugal
- Strategically located warehouses in Lisbon, near Madrid (Valdemoro and Getafe), in Barcelona and in the Canary Islands (Las Palmas de Gran Canaria)

Our network is ideally suited to act as a central Iberian hub. Using existing synergies within geographical areas, Movianto Portugal and Movianto Spain are managed as one region within the Movianto Group.
